## Upcoming Electricity Rate Increases

The Memorial Day holiday is upon us which signals the start of the Summer Cooling Season. While we all look forward to fun in the sun we dread the higher electric bills that come with it.

With deregulation of PA Electric Utilities complete, the days of paying the same rate for electricity throughout the year are a thing of the past. Each utility has a its own method to adjust rates periodically and pass costs on to you, the consumer.

For example, Duquesne Light's Price to Compare for Residential customers will increase over 5% from 8.89¢/KWH to 9.41¢/KWH starting this June. Similar, but less dramatic adjustments are being made to their commercial rates. Other utilities such as West Penn Power (formerly Allegheny Power), Penn Power, PECO, PPL, and Penelec also have adjustments set for early summer.

There are many utility and state programs designed to help you reduce your monthly KWH usage but none of them save you money on the KWH you actually use. Energy Savers, Inc. can help you reduce your per KWH cost to save you money monthly on utility bills. If you have not chosen a supplier, or have a variable price electricity offer from a supplier, now is also the time to switch to ensure savings.

You can save up to 23% off your Residential Electricity bill through our Residential Savings Program which is available to residents within the Duquesne Light, PECO, and PPL service areas. To find out more about our program visit our website at <http://www.energysaversinc.com/residential> and signup online. Commercial rates are available upon request.

Please call us if you have any questions at (412) 364-6468 or email [info@energysaversinc.com](mailto:info@energysaversinc.com)

Have a fun and safe Holiday weekend!

"Energy Alerts" and "Energy News" are sent via email utilizing ESI's exclusive E-Cast system to our Customers/Partners and friends and are designed to alert you relative to problems with energy costs while offering sound advice to avoid financial pitfalls. Subject matter includes relevant tips on cost savings, utility management and maintenance necessary to control natural gas and electrical costs. Energy Alerts will be sent as events warrant, not on any set schedule. Future Alerts will inform you of developments in the regulated as well as deregulated energy markets. This service is completely confidential and your name and email address will not be shared with any other source. Please feel free to contact us at your convenience at (412) 364-6468 or [info@energysaversinc.com](mailto:info@energysaversinc.com).
